## Technology at work for you

### AUTOMATE YOUR COPIER, PRINTER AND MFP METER READS

Are you ready to be free from the tedious, error-prone process of manually entering your Customers' meter reading every month? The Meter Center from *Miracle Service™* can save you valuable time and money by automating that process for you. It receives incoming emails from the devices, collects the meter reads, and automatically enters the data into *Miracle Service™* without you even having to touch a button.

No more hassles – it's that easy!

The Meter Center works with industry leading manufacturers' email-enabled printer, copier and MFP devices. It automatically reads the serial numbers, print, copy, fax and scan counts, including black copy and color copy counts, and seamlessly enters that data directly into *Miracle Service™*.

Save time. Save money. Improve accuracy.

### BENEFITS

- ELIMINATES TIME CONSUMING DATA ENTRY EVERY MONTH
- SAVES TIME FROM CALLING FOR METER READINGS
- IMPROVES ACCURACY BY ELIMINATING HAND-ENTRY
- ENHANCES CUSTOMER SERVICE
- FULLY AUTOMATIC
- HASSLE-FREE DATA ENTRY
- BUILT-IN METER VALIDATION
- FULLY INTEGRATED TO MIRACLE SERVICE™
- SAVES YOU TIME & MONEY

## never hand-enter a meter reading again

### FLEXIBLE AND EASY TO USE

- User-friendly interface.
- Low monthly pricing based on number of active machines sending readings.
- Works with email-enabled printer, copier and MFP devices.
- Secure data transfer of readings.
- Data validation & error reporting.
- Searchable and sortable view screen for up-to-date data management.

### OFFICE EQUIPMENT INDUSTRY FOCUS

*Miracle Service™* already incorporates many time-saving and powerful features specifically developed for the Office Equipment industry. New features like Supplies Yield Tracker and Report Designer combined with enduring components such as Meter-billing, Scheduling, Inventory and Contract Management all work together to provide you with a complete dealer management solution.

Today, almost every dealership is enhancing its business with Managed Print Services. A successful MPS strategy requires the support of a strong dealer management system, and *Miracle Service™* has responded with MPS enhancements – from sales pipeline management through to order, contract management and renewals.

Helping office equipment companies to improve their productivity and boost their bottom-line is what continues to make us the software of choice for thousands of dealers.

## HOW IT WORKS

### COPIERS, PRINTERS & MFP's

Meter readings are sent from the device to you via the Meter Center, where it reads the serial numbers, print, copy, fax, scan counts, black copy and color copy counts.

### METER CENTER

The meter readings are securely stored in the Meter Center where they can be viewed, sorted and searched by you using an easy, user-friendly interface.

### METER CENTER CONNECTOR

The Meter Center Connector, which is located on your server, automatically polls the Meter Center every day (or at your request) to get the latest meter readings. The readings are validated for accuracy, and the data is automatically entered into *Miracle Service*.

### MIRACLE SERVICE

Without any effort or hand-entering by your staff, your Customers' monthly meter readings automatically appear in your *Miracle Service* software – ready for billing.
